

# Put these numbers in order...

10

100

70 30 20 90 50 60  
80 40

# How much money is there?

10p

I have these 10p coins. How much do I have?

I spend 20p, how much do I have left?  
(count back in 10s from the total)

I have these 10p coins. How much do I have?

I spend 20p, how much do I have left?  
(count back in 10s from the total)

I have these 10p coins. How much do I have?

I spend 20p, how much do I have left?  
(count back in 10s from the total)

$$42 = 40 + 2$$

How many balloons here?  
What is the sum?

How many balloons here?  
What is the sum?

# Count the balloons then write the sum:

$34 = 30 + 4$
