

How can we work out the missing numbers?

What is the rule?

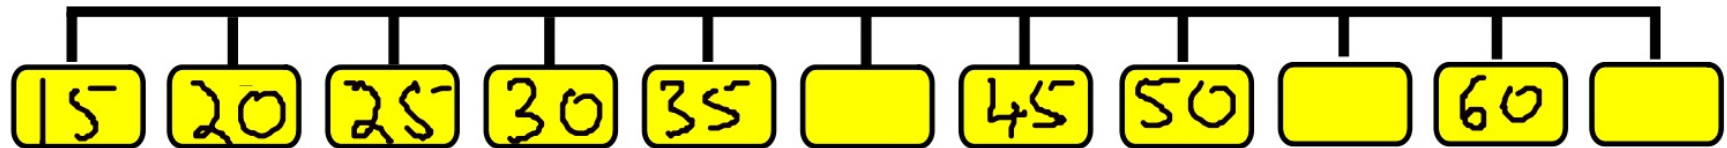

Is it + or -?

How can we work out the missing numbers?

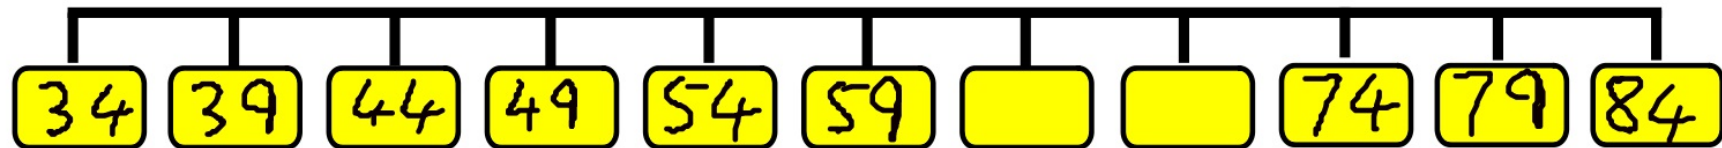

How can we tell if we make a mistake?

How can we work out the missing numbers?

What about this one?

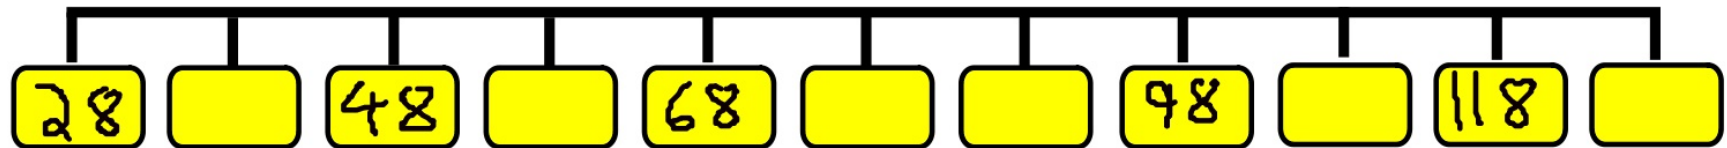

Can you see a pattern in the units?

What is the rule?

Is it + or -?

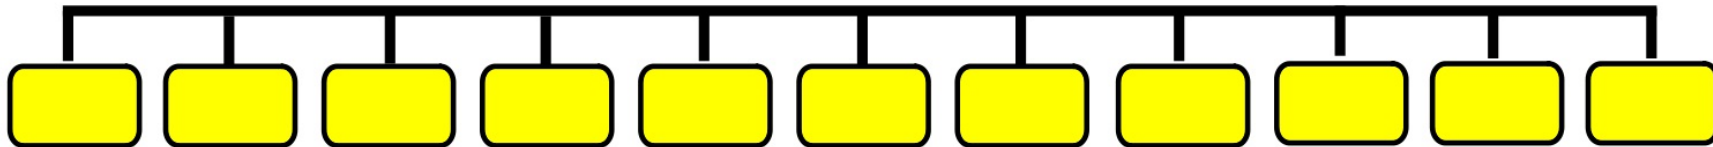

Why is this one harder?

Lets make a sequence with these numbers. 16 18

Shall we do a + or -?

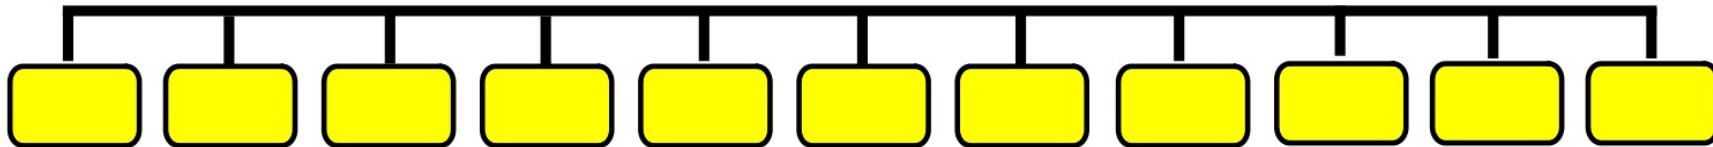

What will the steps be?

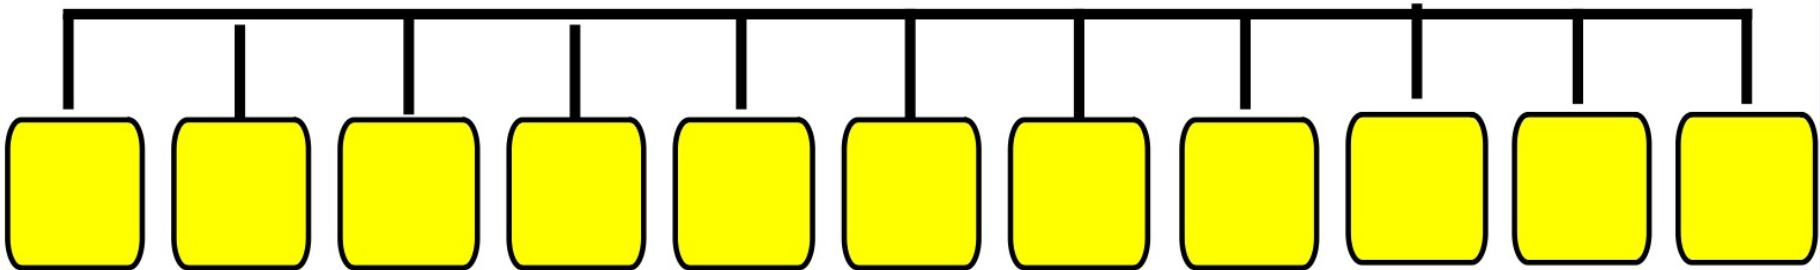

Lets make a sequence with these numbers. 38 33

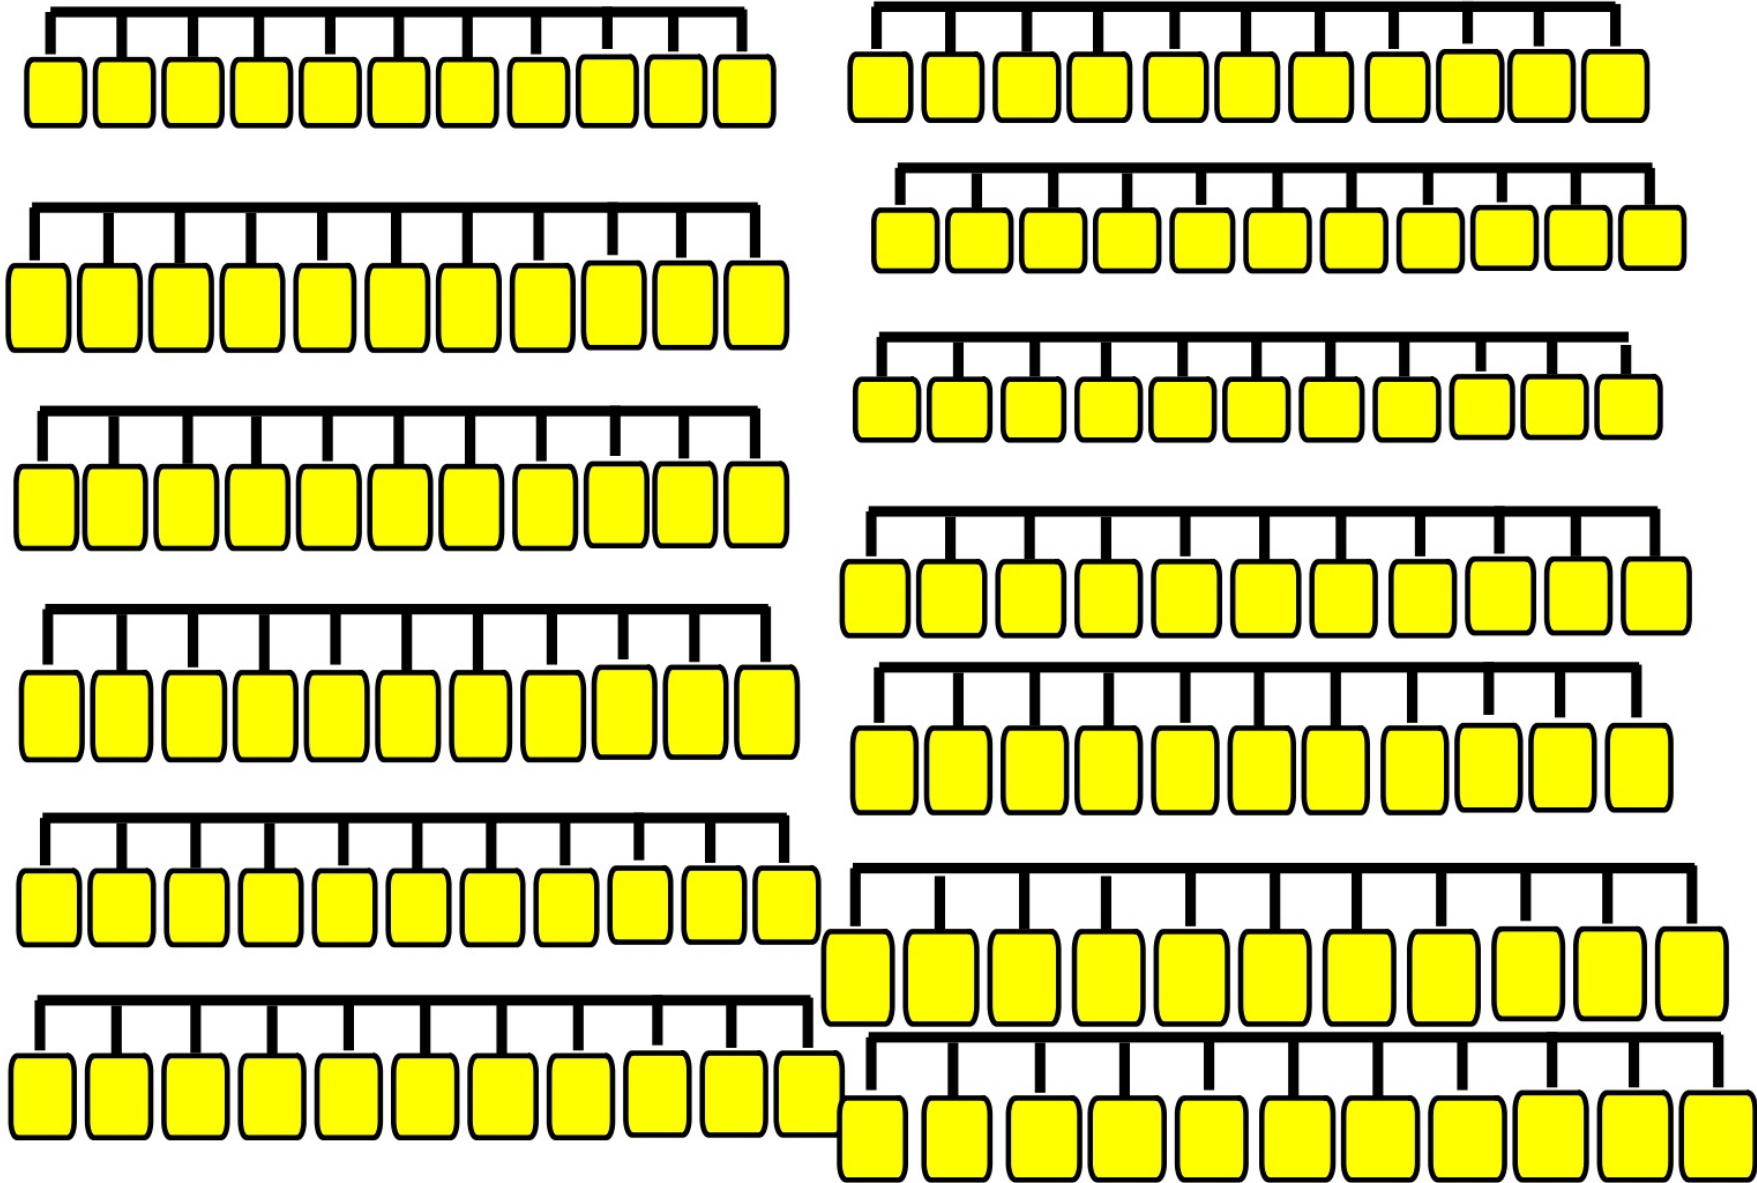

Shall we do a + or -?

What will the steps be?

Make number sequences using these grids.

To create number sequences

On your whiteboard, make a number sequence for your partner to solve.

Think of the rule first!

Is it + or -?

Use steps of 2, 3, 4, 5 and 10.

Can you make one where there are no numbers next to each other?
