

To choose best unit to measure

Steps to success:

- 1) I can measure accurately in cm.
- 2) I can measure accurately in mm.
- 3) I can choose the correct unit to measure in.

How tall are you?

What would you use?

mm, cm, m, km?

What would be your estimate?

How long is your pencil?
What unit would you use?
mm, cm, m, km?
What is your estimate?

What is the actual?
